I Cory J. Bigsby Sr., am confessing that on 30 Jan 2022 stepped outside of my apartment at 171 Ranalet Dr. to getti^{CJB} get some items out of my car to wash clothes and when I returned I found my son Codi Josiah Bigsby laying at the bottom of the steps unresponsive. He must have fallen. I then tried to revive him by administering CPR several times over and over until I couldn't anymore. Then I prayed. Step outside for a few minutes and talked to God as I prayed and asked God to allow my son a second chance. Then I returned and administered CPR again but got response so I panicked and prayed. After that I placed him into a trash bag and put him into the back of my truck. On the 31st of Jan. at

O.R around 3:30am I took him
to Garrett A. Morgan Blvd and
placed him into a ~~resp~~ tacle bend.
After I realized it was a trash can
took him out and put him into
a hole I dug beside a tree inside
the treeline. He had tape around
his ankles and wrist, a cowboys rug
under him, beats headphones in his
ears. I then ate and placed his
bike and some trash after I
ate, at the scene.
